3MP DISPENSING SYSTEM

Hygienic. Drip-free. Environment friendly.

A closed system suitable for locations that demand high hygiene levels. The construction guarantees an airtight solution, making it impossible for bacteria and contaminants to find its way back into the container. The 3MP solution is the environmentally friendly alternative since it is fully recyclable without disassembly. The industrial design and few parts make it durable and reliable. The design gives you a clean and drip-free solution.

The 3MP dispensing system is perfect for micro dosing products like soap, lotion, hand sanitizers and other skin care products.

With the 3MP system, you get a hygienic and drip-free dispensing solution that constantly delivers a predefined dose of 1 or 2ml and effectively empties the packaging.

Features & benefits:

- Hygienic and safe micro-dosing.
- Few parts.
- Clean and drip-free operation.
- Pre-defined dose (1 or 2ml).
- Effectively empties the packaging.
- Minimum product waste.
- Fully recyclable – environment friendly.
- Suitable for products like soap, lotion, hand sanitizers and other skin care products.
- Accessories available: Different bottles and wall hangers.

Wall bracket: #717200
Refillable bottle (1L): #779103
