

ASEPT™

The Dispensing Specialist

HANDHELD PORTION CONTROL PORTION PUMPS

Handheld portion control dispensers make food prep efficient. They reduce waste, ensure consistent flavor and speed up service. Designed with a comfortable grip and patented valve system, Portion Pumps offer drip-free serving and provide precise portions for single-stream and triple-spread applications.

Now available in two tailored styles:

- **MAX** | Ideal for portioning thicker sauces and those with particulates*, MAX features a vacuum-primed system that eliminates bottle banging and delivers up to 99% yield.
- **Portion Pump (original)** | Seamlessly integrates with FIFO™ bottles for streamlined, precise portion control in your current setup.

Decide With Confidence

Feature	MAX	Portion Pump (original)
System Type	Vacuum-primed	Integrates with FIFO™ bottles
Yield	Up to 99%	Standard squeeze bottle performance
Ideal Use	Thin to thick sauces with particulates*	Thin to thick products, without particulates
